4KIDS Palm Beach

Mission: 4KIDS exists to bring hope, homes, and healing to kids and families in crisis. Our vision is to provide a loving home for every child suffering from abuse, abandonment or neglect. We believe that together, we can break cycles and redefine foster care in our community.

Project: Funds for transitional support when kids come into foster care or switch homes. 4KIDS experienced a tremendous amount of growth in 2021 (40%) of children placed with families through their agency and also added a specialized family foster home and doubled the number of children served within their two, family style homes. 4KIDS needs funding to assist families while they wait for services provided through the lead child-based care agency which takes time due to paperwork, assessments, referrals, etc. A large need is transitional daycare while they wait for a placement available in facilities accepting the vouchers. Many families willing to foster don't have the extra funds to pay out-of-pocket for daycare, therapy, etc.

of Children Helped: 70+ children
