Speak Up For Kids PBC

Mission: Our mission is to reach 100% **advocacy** for every **abused, abandoned or neglected** child in Palm Beach County. Our vision is to champion the Guardian ad Litem Program and volunteers who advocate for the **physical, educational and emotional best interests** of our kids, ultimately, breaking the cycle of abuse violence crime and neglect one child at a time. Speak Up For Kids serves all of Palm Beach County’s almost 1700 children involved in the **foster care** system.

Project: Assist GAL volunteers in making a meaningful difference in a foster child’s life by **providing opportunities** to engage in “**normalcy activities**” such as **music, sports, theatre**, and other recreational activities to help **empower** them to **develop their full potential** and **enjoy** typical **childhood experiences**.

Participation in extracurricular, enrichment, and social activities encourages the child’s emotional and developmental growth and connects the children to community members, often leading to **permanent life-changing relationships**.

of Children Helped: Approximately 60 Palm Beach County children will benefit.
