\$3,500**

Healthy Mothers, Healthy Babies

Mission: The mission of Healthy Mothers, Healthy Babies is to improve birth outcomes and promote healthy families by providing access to care, education and support to those facing the physical, emotional, economic and social challenges of pregnancy and infant care.

Project: Basics4Babies serves children in need ages 0-3 throughout Palm Beach County focusing on infant hunger and diaper needs for families who are unable to sustain because of the high costs associated with these items. Our support of families is based solely on our inventory, which is dependent entirely on available funding. Product is purchased directly from distributors and made available on a weekly schedule as soon as it is received and processed, to any Palm Beach County resident demonstrating a verified need.

The impact of COVID-19 on families who accessed the pantry as evidenced by increased pantry services overall. The focus of this grant request is to support inventory purchases of formula, baby food and diapers to help meet the increased need of children in Palm Beach County ages 0-3.

**# of
Children
Helped:** Approximately 600 children
will be served.
