Hannah's Home of South Florida

Mission: Hannah's Home of South Florida, Inc. provides a safe and loving faith filled environment for single pregnant young women. Through counseling, life skills and continuing education we offer hope and transform lives. Our vision is to change lives, restore hope and transform hearts. Our unique 2-year program affords our resident mothers the opportunity to secure long term, reliable and affordable housing, reliable and affordable childcare as well as a career which will provide for both themselves and their child upon graduation the program. We aim to build up and empower these amazing single mothers to become productive members of society.

Project: Hannah's Home of South Florida has seen an increased need for mental health counseling especially during the uncertain times of a pandemic, quarantine, and civil unrest. Happy healthy mothers, result in happy healthy children; therefore, Hannah's Home would utilize the grant money to secure mental health counseling for each resident mother and her child.

of Children Helped: 16+ families
